Well you heard of the shake and the boogaloo  
The mashed potato and the hoochie coo  
You heard of the twist and the funky chicken too  
Well here's a new dance that's gonna teach you to do.

Here's the first dance and It's really easy  
Well it's kind of hard work and called the wheezy  
You just run on the spot as fast as you can go  
And when you get tired you just puff and blow.  
And do the wheezy baby  
Do the wheezy baby  
Do the wheezy baby  
Everybody get up and dance c'mon

Here's another dance that I think you'll like  
You stand still and do nothing and it's called the strike  
You don't have to use your body ain't it a groove  
You just wait until someone else makes the first move.  
Do the strike baby  
Do the strike baby  
Do the strike baby  
Everybody get up and dance c'mon

Well theirs a brand new dance with a brand new angle  
It's the very last waltz and it's called the dangle  
You tie a rope round your neck and stand on a chair  
And you kick it away and your dancing on air.  
Do the dangle baby  
Do the dangle baby  
Do the dangle baby  
Everybody get up and stand  
To the dangle baby  
To the dangle baby  
To the dangle baby  
Everybody get up and scream c'mon
