## **Heaven And Hell**

## John Entwistle

On top of the sky is a place where you go, If you've done, nothing wrong If you've done nothing wrong. And down in the ground is a place where you go If you've been a bad boy If you've been a bad boy. Why can't we have eternal life And never die Never die. In the place up above, you grow feather wings, And you fly, round and round With a harp singing hymns. And down in the ground you grow horns And a tail, and you carry a fork And moan and wail. Why can't we have eternal life And never die Never die. (Guitar Solo) On top of the sky is a place where you go If you've done, nothing wrong If you've done nothing wrong And down in the ground is a place where you go, If you've been a bad boy If you've been a bad boy. Why can't we have eternal life And never die Never die.
