

## Thinkin It Over

John Entwistle

Whatcha gonna do when your wife finds another  
Takes the kids and the car and half of the house  
Whatcha gonna do, move in with your mother  
And spend your time looking to find a new spouse.

Thinking it over  
It ain't worth the worry  
Starting over to make a new life  
Thinking it over  
I decided not to bother  
I decided to take my own life.

I'm on the ledge outside my window  
The ground is ten stories below  
As I look down, the crowd look up  
Wondering whether I'll jump or not.

Whatcha gonna do, disappoint all those people  
Or make a splash in the headlines next day  
Whatcha gonna do, waste the time of those policemen  
Or let your audience have their own way.

Thinking it over  
I decided not to bother  
I decided to take my own life  
Thinking it over  
It ain't worth the worry  
I decided to take my own life

Whatcha gonna do, disappoint all those people  
Or make a splash in the headlines next day  
Whatcha gonna do, waste the time of those policemen  
Or let your audience have their own way.

Thinking it over  
I decided not to bother  
I decided to save my own life  
Thinking it over  
I decided not to bother  
It's too high price to pay for an unfaithful wife.
