## **Eternally**

## John Farnham

If I could ask you things unspoken Give to you all my honesty If I could show you any token Of the love welling up in me I'd let you see what you mean to me

If you could hear me, I'd sing love songs As you drift gently into sleep If you could see me, I'd blow you kisses Let them cross the ocean blue and deep

I wish you could see, what you mean to me Eternally

When I had the chance to share with you my days All those precious tender moments Well I let them slip away

If I could touch you for a lifetime You would know that I would love you true Eternally, eternally, eternally

If I had one wish that could be answered I'd undone all that I have done I know I took it all for granted Thought I'd have you for all my days to come

Here with me eternally, eternally
