Going, Going, Gone

John Farnham

Things have changed, since we met you It's hard to see your point of view It's not the same, we've been sold out Don't you know, what it's all about

Going, going, gone, don't wait too long You can't hold on, if you're too far gone Going, going, gone, the pressure's on Don't wait too long before you're too far gone

So we've seen, how they run your world You're just a name, just a flag unfurled What they say is what you do But who are they to answer to?

Going, going, gone, don't wait too long You can't hold on, if you're too far gone Going, going, gone, the pressure's on Don't wait too long before you're too far gone

Going, going, gone

Now it seems, that we did not know What it means, when we let go Although we try, to understand Now is the time, to show your hand

Going, going, gone, don't wait too long You can't hold on, if you're too far gone Going, going, gone, the pressure's on Don't wait too long before you're too far gone

Going, going, gone, don't wait too long You can't hold on, if you're too far gone Going, going, gone, the pressure's on Don't wait too long before you're too far gone

Going, going, gone, don't wait too long You can't hold on, if you're too far gone Going, going, gone, the pressure's on Don't wait too long before you're too far gone

Going, going, gone
