Heart's On Fire

John Farnham

Last rites first blood

Maybe a dream but then it's clear enough

Can't hide can't sleep

Is it the vision or the body heat?

True love's when your heart's on fire
If I'm the paper you're the sparkin' wire
True love's when your heart's on fire

One step too deep I made a promise now it's hard to keep One word one kiss Come any closer and you burn like this

True love's when your heart's on fire
If I'm the paper you're the sparkin' wire
True love's when your heart's on fire

You're talking trouble when you move this fast You're never certain that the light will last You've got to wonder when the place will blow Leaving nothing but a bed of coals

I made a promise not to fall this time And not to watch another love go blind Not to let another flame burn low Now I'm praying that you won't let go

Well all right it's hot stuff
It's hard to focus but it's clear enough
The weak run, the lost hide
The strong forever hold the flame inside

True love's when your heart's on fire
If I'm the paper you're the sparkin' wire
True love's when your heart's on fire
