

# Dance With Me

John Foxx

Outside  
It's so warm  
And the rain is on my face  
Inside  
I feel  
A part of me slips away  
So dance with me  
Dance with me  
Oh dance with me all my life  
Oh we'll go waltzing through the crowd  
While all the skies go tumbling down  
Oh we'll be magic in the night  
Leave all the people spinning by  
Inside  
I feel all my shadows  
Move away  
By the light  
Of the fire  
Part of you seems to change  
So dance with me  
Dance with me  
Oh dance with me all my life  
Dance with me  
Oh dance with me  
Dance with me all my life
