

# Dust And Light

John Foxx

Sometimes I've seen you walking among the population  
Hidden in the margins for a while  
Sometime's I feel you moving among the population  
Flickering through the faces and the times

You're just Dust and Light  
You're just Dust  
Dust and Light  
You're just Dust and Light  
You're just Dust  
Dust and Light

Sometime's I've glimpsed you integrating a new formation  
Glittering in the corner of my eye  
I've often known you when infiltrating situations  
Slipping through all defences like a scythe

You're just Dust and Light  
You're just Dust  
Dust and Light  
You're just Dust and Light  
You're just Dust  
Dust and Light

Now I've often seen you engineering the quiet exchanges  
Devising the truth of your long designs  
And I've often sensed you turning a corner not paying attention  
As you pass through the corners of my life

You're just Dust and Light  
You're just Dust  
Dust and Light  
You're just Dust and Light  
You're just Dust  
Dust and Light

Now I've often seen you engineering the quiet exchanges  
Devising the truth of your long designs  
And I've often sensed you turning a corner not paying attention  
As you pass through the corners of my life

You're just Dust and Light  
You're just Dust  
Dust and Light  
You're just Dust and Light  
You're just Dust  
Dust and Light
