Shine On

Stand by your shadow Now you're completed All kinds of lights Show me you're there Slowly through sunsets Somehow the air is oh so bright Mouth on my mouth We'll be sailing away As someone Shines on Somewhere Out there When I'm bewildered When all the world is running wild Show me an island Just for a time Turn to me slowly Close as the air and oh so bright Sleep with me gently Songs on the wind As someone Shines on Somewhere Out there WIX - drums JOHN FOXX - all other instruments

John Foxx
