

Stars On Fire

John Foxx

Give me a drink and I'll remember you
Ah, blow me a shadow from that smile
Roses are blooming down the avenues
Looks like I came home just in time

And all the leaves go tumbling down
There's a big yellow moon shining all over the town
And we walked by the river
As you smiled and you pulled me around
And all the stars
Were on fire

Oh you were so perfectly original
You never give chapter or a verse
And I'll always love you for your miracles
Never for better
Or for worse

And all the leaves went tumbling down
There's a big yellow moon shining all over the town
And we walked by the river
As you laughed and you pulled me around
And all the stars
Were on fire

Oh the night was so magnificent
I just had to be with you awhile
And all the world was wild and innocent
And I felt like I was loved

And all the leaves went tumbling down
There's a big yellow moon shining all over the town
And we walked by the river
As you laughed and you pulled me around
And all the stars
All the stars
All the stars
Were on fire
