

Water

John Frusciante

Water inside
We're all in water
Water we climb and run through it
Water inside
We're all in water
Reaching inside of a big death bag
When you go to danger
Ends are met and live
Where they are happens to be where they have been
When you lower placement
The strong get stronger
Where you are and when you waste there's a whip hitting you
Water inside
We're all in water
Water we climb and run through it
Water inside
We're all in water
Reaching inside of a big death bag
Everytime I fake it
Devils crawl thru me
I'm ashamed when I ignore the voices that agree
Get us all together
Where we all wish for the same thing
It's only lie to recall believing your body
Water inside
We're all in water
Water we climb and run through it
Water inside
We're all in water
Reaching inside of a big death bagWater inside
We're all in water
Water we climb and run through it
Water inside
We're all in water
Reach inside of a bag
