

Little Blue Song For You

John Hiatt

Get your shoes on. Shoe them blues on.
Get that full moon out of your eyes.
You're the river. Girl you live here,
With the sun way up in the sky.

When you're sad,
Let that sad come through.
Singing little blue song for you,
Little blue song for you.

Let your heart go. Let them winds blow.
There's so much you can learn.
When the change comes, darlin' it might hurt you some.
There's a time for things to turn.

Listen to the Earth, she call your name.
Lady love the children all the same.
Feels so good to let it out.
You know what I talk about.
Let your mind get up and shout, Oh love.
