

Take Another Look

John Hiatt

Maybe you have seen my party
And you think I won't do
But inside you see I'm lonely
And I need someone true
Maybe I look like a spider man
But just the word and I'll learn to fly

Take another look
At what you see
And you may find
That it's all right

Maybe you have seen me walking
Down some city street
And thought there is someone
I couldn't care for
Maybe I look like a sit down guy
But just say the word
I'll be your everything

Take another look
At what you find
'Cause what you find
May be all right
Take another look
At what you see
'Cause you may find
That it's all right

Maybe I look like I'm nowhere
But I'm right here
And I'm a real gone cat

Take another look
At what you see
'Cause you may find
That it's all right
Take another look
At what you see
'Cause you may find
That it's all right
