

# You're My Love Interest

John Hiatt

Your hair is brown  
Your eyes are brown  
Your skin is white  
Two out of three  
OK with me  
Come over here tonight  
I believe, I believe  
I believe in you  
I see your body, I see your body  
And I know what to do-

Cause you're my love interest  
You're my love interest  
You're my love interest  
You're my love interest

Your mouth works  
Your mind works  
You're a real surprise  
You tell me this  
With just one kiss  
You're the actual size  
I say some words  
They are heard  
You move in closer to me  
Bip, bip, bip, bip, bip bip bip, bip  
Baby one two three  
You're my love interest  
You're my love interest  
You're my love interest  
You're my love interest

My heart is beating  
Your heart is beating  
There is no one around  
I'll make a sign  
You read my mind  
We are safe and sound  
I believe, I believe, I believe in you  
I see your body, I see your body  
And I know what to do

Cause you're my love interest  
You're my love interest  
You're my love interest  
You're my love interest
