

# Asylum

John Legend

Our love's an asylum  
Where you and I go  
Our love's an asylum  
Where we go, go, go, go crazy

In a state of madness  
Wrapped up in your magic  
Ecstatic, an addict  
Oh, we landed on another planet  
And it feels like home here  
Will never go back there

Cause we're crazy, I'll go crazy with you  
You're so crazy, I'll go crazy with you

Our love's an asylum  
Where you and I go  
Our love's an asylum  
Where we go, go, go, go, go

To the edge of reason  
Grow, lose your mind when needed

Our love's an asylum  
Where you and I go  
Our love's an asylum  
Where we go, go, go, go crazy

Can't nobody save me  
I'll go down with you, baby  
I'll take you, you'll take me

Crazy - I'll do crazy with you  
Let's go crazy, I'll go crazy with you

Our love's an asylum  
Where you and I go  
Our loves an asylum  
Where we go, go, go crazy
