

# Good Morning

John Legend

Good morning  
Good morning, love  
It's my favorite love song  
I waited all night long

Before you get into the shower  
Before you worry about your hair  
Baby, give me one more hour  
I want you to stay right there

I don't wanna lose a moment  
I don't wanna miss a kiss  
If I could plan the perfect day, love  
Then I would start it just like this

Good morning  
Good morning, love  
It's my favorite love song  
I waited all night long for morning

Good morning, love  
Before we start the day, dear  
I'm whispering in your ear  
Good morning

Now baby how can I commence you  
I'll make it so you can't resist  
Whatever else you have to do now  
It can't be half as good as this

I'll case you underneath the sheets, love  
And I won't let you get away  
The day won't be complete, love  
Unless we get a chance to say

Good morning  
Good morning, love  
It's my favorite love song  
I waited all night long for morning

Good morning, love  
Before we start the day, dear  
I'm whispering in your ear  
Good morning

Open your eyes  
See my son rise  
I feel you're scared  
[Unverified]

Day breaks so sweet  
When you're next to me  
So stay each night  
So each morning will be

Let's get lost together  
I will smile forever

I will smile forever  
Was morning
