

1. She's a fast love professional, crafty bold and beautiful  
Stage right, locked eyes, I swear it's magical  
Her name is Melanie, says she digs my melodies  
Likes how I move, thinks I'm cool that's what she says to me  
Big stage, bright light, short love, long night  
Frequent flights through the skies to some stars  
I come back to town, she's hangin' around  
It still feels so real but it can't go too far.

R: Her favourite colours be platinum and gold  
She only loves in stereo. She only loves in stereo.  
I should know 'cause I've seen it before  
I think I gotta let her go, she only loves in stereo!  
Oh oh... oh oh... oh oh

2. Turn on the video, oh my goodness there she goes  
Now I'm hot, seems I'm not the only one she knows  
Name dropping everyday, I still want her anyway  
I like how she moves, think she's cool, my favourite get away  
Big stage, bright light, short love, long night  
Deja vu, yeah, we do it again  
Off to the next town, she's onto the next round  
Let it go, we both know that it's all gonna end, oh

\*: She fell in love with the radio  
It wasn't really me, so I had to let her go  
Just ask any DJ back in her hometown  
She likes to get around  
As much as she gets down
