

## Intuition

John Lennon

My intentions are good, I use my intuition  
It takes me for a ride  
But I never understood other people's superstition  
It seemed like suicide  
And as I play the game of life  
I try to make it better each and every day  
And when I struggle in the night  
The magic of the music seems to light the way  
Intuition takes me there  
Intuition takes me everywhere

Well my instincts are fine  
I had to learn to use them in order to survive  
And time after time confirmed an old suspicion  
It's good to be alive  
And when I'm deep down and out and lose communication  
With nothing left to say  
It's then I realize it's only a condition  
Of seeing things that way  
Intuition takes me there  
Intuition takes me everywhere
