

Steel And Glass

John Lennon

1. There you stand
With your LA tan
And your New York walk
And your New York talk

2. Your mother left you
When you were small
But you're gonna wish
You wasn't born at all

R: Steel and glass
Steel and glass

R: Steel...

3. Your phone don't ring
No one answers your call
How does it feel
To be off the wall?

4. Well your mouthpiece squawks
As he spreads your lies
But you can't pull strings
If your hands are tied

5. Well your teeth are clean
And your mind is capped
You leave your smell
Like an alley cat

R: Steel... (2x)

6. There you stand
With your toilet sand
And your Mickey Duck
And your Donald Fuck

7. Your daddy left you
When you was small
You're gonna wish
You wasn't born at all

R: Steel...
