## **Another Way**

John Lydon

I, I've got to find another way
I, I've got to find another way
Put it down to no one else
Yes, I, I've got to find another way

One upmanship is a game you play Competition is a game you say Well, rules and rules and rules are for fools This gravy train led by mules

Get that old stuff out of my head A chip on the shoulder, feels like lead And everyone has their say But I, but I, I gotta find another way
