

# Go Down Easy

John Martyn

You know  
Very soon, very soon, very soon  
It can pour down  
And then very soon, very soon  
When the rain comes  
No more, no more  
No more pain, no more pain  
For you and me.

When the rain come  
When the rain come  
When the rain come  
Oh go down easy.

Curl around it  
Like a bird in the spring  
Come out and just  
Any time and I'll sing the things you bring.

Go down easy  
Go down easy.

And as we lie in dry dust  
Just like the evil rust  
Easy  
Between the drizzle and the drop  
Between the hard case and yourself kissing the soil  
Once please.

Do you like the rain coming  
Do you like the rain falling down  
Sometimes I love the rain falling down  
Curl around it, like some bird in the spring  
Talk to me, I'll sing the things you bring.

Go down easy  
Right now, look at the rain  
A gentle message from above.
