

Heartache

John Mayall

I've been talkin about with heartache
a pillow bringin wet in tears
i found a girl and she's breakin my heart
and i don't know if she really cares
darling i can't live in my lonely place
you know she's so far away,i dream about her angel face
every morning we've spent together, each moment is a
precious thing
i wanna tell her about the all her love in my heart
and she may never see me again
darling i can't live in my lonely place
you know she's so far away,i dream about her angel face
noone in this world can help me,if i can never be free
hear me confess all my feelings for you,imagine that you
love me
darling i can't live in my lonely place
you know she's so far away,i dream about her angel face
