

## I'm a Stranger

John Mayall

You're a pretty girl, I'm a stranger  
But I've got feelings for you to hear  
I've been travelling around for days  
But sweet angels don't often appear  
I saw you in the crowd  
But I was not allowed to have you near  
I was listening to your voice  
I heard your name was Caroline  
But you had another man by your side  
And I wished that you were mine  
Precious hours went by  
Before I had to try and leave you behind  
Hills and rivers separate us  
And my words were all in vain  
You were only my magic dream  
Lightning flash in the falling rain  
But wherever I may be  
I wish that you could be with me again
