The Bear

John Mayall

I've been living with the Bear in a big house full of blues Going back through the years, hear any record you choose The sun is shining down and the Bear is rolling in the shade Everybody is gonna boogie, blues roll night and day Turn on all of the people who got no place to stay All the men of Canned Heat are part of my family I'm gonna remember the things they did for me I got to be moving, they call me Wandering John I'll see you, old Bear. I'll be back 'fore long...
