Why Worry

John Mayall

Got to see all those headlines Same old depressing news Trouble surround us so I play my blues Tell me why should I worry All the world is crazed We can take it, yes we do don't we I'm so amazed So I go to the ocean Give me time to think No time for troubles Give me one more drink I'm gonna leave for the ark Do the best I can Shake out my troubles I'm not a worrying man (Believe that stuff about gas gettin' cheaper) (You know the price will be up before you get up in the morning) (Now 'bout this, do you think we're gonna get them horses back to the ranch.....)
