

# Helpless

John Mayer

The same drink that gets me out the door  
Is the same drink that puts me on the floor  
And the new thing I wanna try some more  
Is the same mistake I used to make before

If I'm helpless tell me now  
Tell me now  
If I'm helpless tell me now  
Tell me now  
If I'm helpless tell me now  
Tell me now  
And I'll stop trying to figure it out

The same brain that brings me ecstasy  
Is the same pain that gets the best of me  
And the one I love the most just said to me  
A broken heart is all I'll ever be

If I'm helpless tell me now  
Tell me now  
If I'm helpless tell me now  
Tell me now  
If I'm helpless tell me now  
Tell me now  
And I'll stop trying to figure it out

Help me  
Help me  
Help me

If I'm helpless tell me now  
Tell me now  
If I'm helpless tell me now  
Tell me now  
If I'm helpless tell me now  
Tell me now  
And I'll stop trying to figure it out

If I'm helpless  
If I'm helpless  
If I'm helpless  
Then I'll stop trying to figure it out
