

## A Little Night Dancin'

John Mellencamp

Well west of Zion  
They got a hot spot brewing  
Handcuffs and kisses  
For the people who live there

Guitar player's playing  
Cinderella saying  
Hey boys get that spoon to my nose  
And we'll run through the midnight air

Night, night, whoa night dancin'  
Hey just a little, little, little night dancin'  
Night, night, whoa night dancin'  
Hey just a little, little, little night dancin'

Sodom and Gomorah  
They run the roadhouse  
They keep everything jumping  
As the drummer keeps the beat

And it's really something when those kids start bitchin'  
Yeah it starts me itching  
As I jump to my feet

Night, night, whoa night dancin'  
Hey just a little, little, little night dancin'  
Night, night, whoa night dancin'  
Hey just a little, little, little night dancin'
