Break Me Off Some

John Mellencamp

Babe break me off a piece of your love Once it's on I can't seem to get enough So keep it up, keep it comin', uh what Break me off some baby

You're wicked, baby so do what's right Break me off a piece of that love tonight Like a steel guitar that I love to play Everyone loves Jesus on judgment day You get hot just like gasoline In your cashmere shirt and your cut-off jeans I've been workin' all day, here's what I made Baby what you say break me off some

Babe break me off a piece of your love Once it's on I can't seem to get enough So keep it up, keep it comin', uh what Break me off some baby

Down in Mexico there's a man I know Who gave away his future for a piece of gold He washed his hands in Noah's flood Now those mountains they're just red as blood I left this place just to come with you Walkin' off the mesa in some dead man's shoes I've been workin' all day, here's what I made Baby what you say break me off some

Babe break me off a piece of your love Once it's on I can't seem to get enough So keep it up, keep it comin', uh what Break me off some baby

Eie yie yie yie yie yie yie Eie yie yie yie yie yie yie

I like the way you're movin' on the dance floor baby I like the way you're moving' on the dance floor baby

Shake shake shake 'til my eyes are sore baby Shake shake shake 'til my eyes are sore baby

Bounce bounce bounce 'til your body is sore baby Bounce bounce bounce 'til your body is sore baby Feel the heat Moe Z Put his hands on

Babe break me off a piece of your love Once it's on I can't seem to get enough So keep it up, keep it comin', uh what Break me off some baby
