

Clumsy Ol' World

John Mellencamp

She spends all our money then she tells me I'm too tight
She calls me sunny 'cause she thinks that I'm so bright
She likes lovin' in the morning, I like it late at night
Gee, it's a clumsy ol' world, gee, it's a clumsy ol' world
She don't eat meat but she smokes cigarettes
She remembers things that I'm trying to forget
We both can hold a grudge but she always forgives
Gee, it's a clumsy ol' world, gee, it's a clumsy ol' world
At times she leaves me half way
But then she'll steal my head
We are always in each other's wings
And that just makes us right
She said she can't quit me but she didn't know why
She gets mean and hates but she's the apple of my eye
We parted from each other with a love that'll never die
Gee, it's a clumsy ol' world, gee, it's a clumsy ol' world
