Love at First Sight

John Mellencamp

Let's suppose you lived over here Let's suppose I lived right over there Let's suppose we shared a kiss On a night like this Let's suppose we went too far In the back seat of your car Let's suppose we fell in love Like two turtle doves And let's suppose we got engaged Underneath that ol' Milky Way And let's suppose we were complete Wouldn't that be sweet And let's suppose we found happiness And built ourselves a nest Let's supposed we had five kids Like our grandparents did And let's suppose our dreams came true Just like they're supposed to do And let's suppose we spent the rest of our lives together But let's suppose sometimes we'd fight When things weren't going right Let's suppose you got tired of me And our family And let's suppose that we went broke And we both just gave up hope And let's suppose you left in a huff Because you didn't love me enough And let's supposed you found another man And hit me in the head with a frying pan And let's suppose I wound up dead Underneath the bed And what would happen to the kids After all that we did Let's suppose we both better just think it over So I suppose it's just hello And that it's time for us to go We got a little ahead of ourselves Like everybody else Maybe some other time I suppose that'd be just fine So until we meet again I suppose we're just friends But remember what they say 'Cause it happens every day I believe in love at first sight So there, I said it Good night
