

# Beer and Bones

John Michael Montgomery

I ain't nothin' but beer and bones  
Honey since I lost you  
I ain't ate a bite  
Since the night  
That you said we're through  
I walked to that jukebox to play  
A few sad country songs  
I heard someone say  
Hey that old boy  
Ain't nothin' but beer and bones

I got to work this morning  
Early this afternoon  
Yeah my boss man nudged me  
Said son I need to talk to you  
You used to make me money  
But lately I been taking a loss  
Well he smelled my breath  
Gave me what was left  
Of the day off

I ain't nothin' but beer and bones  
Honey since I lost you  
I ain't ate a bite  
Since the night  
That you said we're through  
I walked to that jukebox to play  
A few sad country songs  
I heard someone say  
Hey that old boy  
Ain't nothin' but beer and bones

Well I wish I could go home  
And rest my weary head  
But I know I'll just stay here  
And have another beer instead  
That little waitress asked me  
Honey could you use some help  
I said I thank you miss  
I'll have to get through this  
By my dang self

I ain't nothin' but beer and bones  
Honey since I lost you  
I ain't ate a bite  
Since the night  
That you said we're through  
I walked to that jukebox to play  
A few sad country songs  
I heard someone say  
Hey that old boy  
Ain't nothin' but beer and bones  
I heard someone say  
Hey that old boy  
Ain't nothin' but beer and bones
