

# High School Heart

John Michael Montgomery

That ol' drive-in is a parking lot  
They made a shopping mall out of our make-out spot  
The oldies station plays all those songs  
We used to sing  
And even though that ol' high school's gone  
It started somethin' that's still goin' strong  
I swear sometimes I can hear that ol' bell ring

'Cause you still slide in close to me  
Just like you did in my ol' Grand Prix  
You still get a little jealous  
If I speak to Jenny Barnes  
That yearbook smile still drives me mad  
With all that's changed, I'm so glad  
You're still lovin' me  
With that some ol' high school heart

I'd take off runnin' to Mrs. Walker's class  
Lipstick on my cheek and a note in my hand  
I'm still runnin' late 'cause I still can't pull away  
From your lovin' arms  
Every time we touch, you make it feel brand new  
I guess that's why I'm still fallin' for you  
You're still lovin' me  
With that same ol' high school heart

'Cause you still slide in close to me  
Just like you did in my ol' Grand Prix  
You still get a little jealous  
If I speak to Jenny Barnes  
That yearbook smile still drives me mad  
With all that's changed, I'm so glad  
You're still lovin' me  
With that some ol' high school heart  
You're still lovin' me  
With that some ol' high school heart
