

# Kick It Up

John Michael Montgomery

Well I work six days out of seven  
Waiting all week for Saturday night  
Going out to neon heaven  
Punch the clock on party time  
Jamming this old pickup across the county line  
Ain't it good to be alive

Kick it up  
Tell the boys in the band  
Play it hot 'cause I came in here to dance  
Kick it up  
Give that country girl a whirl  
My boots are gonna lose the blues when they turn those guitars up  
Kick it up

Got my paycheck in my pocket  
Darling we'll spend every dime  
And when this bar starts rocking  
We'll show them all just how to unwind  
Don't worry bout your troubles  
Leave 'em at the door  
And I'll meet you out on the floor

Kick it up  
Tell the boys in the band  
Make it smoke 'cause she came in here to dance  
Kick it up  
Give that country girl a whirl  
My boots are gonna lose the blues when they turn those guitars up  
Kick it up  
Kick it up

When the boss man gets you down  
Kick it up  
If you're tired of the runaround  
Kick it up  
Yeah we know Monday morning will be here before too long  
So until the night is gone

Kick it up  
Tell the boys in the band  
Play it hot make it smoke 'cause we came here to dance  
Kick it up  
Give that country girl a whirl  
My boots are gonna lose the blues when they turn those guitars up  
Kick it up  
Oh kick it up  
Kick it up (kick it up)  
Kick it up (kick it up)  
Kick it up  
Kick it up (kick it up)  
Kick it up  
Kick it up
