

## What I Do the Best

John Michael Montgomery

I knew I'd found my life's callin'  
When you spoke my name  
From that moment on, the reason I was born  
Became so very plain  
Now my heart and soul's, one and only goal  
Is to bring you happiness  
Lovin' you, is what I do the best

Some may live to change the world  
And that's alright with me  
My hat's off to those chosen few  
Who rewrite history  
But just to make you smile  
That is how I'll measure my success  
'Cause lovin' you is what I do the best

It's a lucky man who understands  
Where his true talents lie  
And the first time I held you  
I realized  
That there's one thing I do better  
Than all the rest  
Lovin' you is what I do the best  
Lovin' you is what I do the best
