

Can't Get Through

John Miles

I just found out what's been going on,
Somebody told you I've been doing wrong.
Now, do you believe them?
Do you believe them?
Cause I've been lyin' on my bed at night
Tryin' to find a way to put the wrong to the right.
Can we talk it over?
Come, let's talk it over.
Cause I've been trying to get a message to you
But I can't get through.

Can't get, can't get through,
So come on!
Can't get, can't get through.
I've been tryin' to get a message to you,
But I can't get through.

The last few days I've been seein' a change.
It's like the spirit has gone
But something still remains.
So, if you still love me,
Why can't you believe me?
I've been trying to get a message to you
But I can't get through.

Can't get, can't get through!
So come on
Can't get, can't get through!
I've been trying to get a message to you
But I can't get through.
Can't get, can't get through!
Come on
Can't get, can't get through!
I've been trying to get a message to you
But I can't get through!
Can't get through
I've been trying for days
Can't get through
Got to tell you the truth, baby!
Can't get through
I just can't, no I can't get through

Can't get, can't get through!
Come on baby
Can't get, can't get through!
I've been tryin' to get a message to you
But I can't get through
Can't get, can't get through!
Tried every day
Can't get, can't get through!
Come on baby, I just can't get through
Can't get, can't get through!
Can't get, can't get through!
I've been tryin' to get a message to you
But I can't get through
Can't get, can't get through!
Come on
Can't get, can't get through!

I've been tryin', tryin'
But I can't get through
