

Be My Baby Tonight

John Pizzarelli

Every morning, every evening I am dreaming of you,
I keep hoping and believing that all these dreams will come true,
e,

Come on and kiss me, baby just kiss me,
Come on and hold me tight, and fill my life with sunshine,

And make everything alright,
Every morning, every evening, baby, baby can't you see,
Time is right for loving, you're the one for me,
Oh, whether it's raining or people are complaining,

And even in the dead of night,
Forget your cares and be my baby tonight,
[Repeat]
