

Take My Smile

John Pizzarelli

If you should ever leave me take my smile,
Might as well, I won't tell,
I'll never need to use it long as you're gone,
What's the use, there'd be no excuse,
You see you're the only one who ever made me laugh,
You gave your love to me, you were my better half,
I only frown without you all the while,
So if you should ever leave me take my smile,
(Repeat last chorus)
If you should ever leave me, baby please believe me,
If you should ever leave me take my smile.
