Another You

My god what have I done You gave me your heart And I broke it up Now here I am All alone and I'm hatin' me Cause baby with you I had everything Now I'm a nothin' man Not sure what I do from here Or where I'll go Baby the only thing I know is [Chorus] I'll never find another you Someone who moves me like you do Someone that knows me inside out A love that'll never let me down I could search all through this world Try to find another like you girl But no matter what I do I'll never find another you You put yourself in the palm of my hand I was the envy of every man And it was beautiful What a perfect little life we found We built it up and I tore it all down, like a fool How will I ever forgive myself And how do I live Knowing I'll never feel that way again And [Chorus] Maybe someday I'll find a sweet face That takes me half the way to where we've been Oh and who knows maybe I'll come close But comin' close is all I'll ever get All I'll ever get [Chorus] I'll never find another you I'll never find another you
