

# What's A Memory Like You Doing In A Love Like This

John Schneider

You know you shouldn't be here  
What am I suppose to do?  
You know I've found a new love  
And I'm trying to be true

Didn't you say that we were over  
Why do you keep hangin' on?  
You're no longer welcome  
Can't you just leave us alone

What's a memory like you doing in a love like this  
She thinks we're all through but that's not the way it is  
When I hold her in my arms it's your lips I still kiss  
What's a memory like you doin' in a love like this

Don't you know it would hurt her to find you here with me  
Why make me remember the way it used to be  
Can't you see that she can love me the a way you never could  
And I really want to love her, ain't it time you left for good?

What's a memory like you doing in a love like this  
She thinks we're all through but that's not the way it is  
When I hold her in my arms it's your lips I still kiss  
What's a memory like you doin' in a love like this

What's a memory like you doing in a love like this
