

Haunted

John Sykes

Am I really gonna fall in love
Is it really gonna last forever
Is she really gonna break my heart
When she tells me that it's getting better

Black Heart struck by fate
And baby this time there's no escape
Cause I'm haunted by your love

Has the Karma really come to get you
Did the violation come to test you
Did you feel an aching in your heart
Has she torn your little world apart
Yeah yeah

Black Heart struck by fate
And baby this time there's no escape
Cause I'm haunted by your love

Well, first you're saying that you think it's over
Then you call me cause you're all alone
It's easier to find somebody new
And then you tell me that you're thinking of me
Cut me like a knife
For those who know
It's easier to start anew

Is she really gonna fall in love
I don't think so baby

Black Heart struck by fate
And baby this time there's no escape
Cause I'm haunted by your love

Am I really gonna fall in love
Is it really gonna last forever
Is she really gonna break my heart
Will she tell me that it's getting better

Black Heart struck by fate
And baby this time there's no escape
Cause I'm haunted by your love

I'm still haunted
By your love
I'm still haunted, I'm still haunted
And I'm haunted
