

Right Time Of The Night

John Travolta

Sun goes down on a silky day
And quarter moon walkin' through the Milky Way
It's you and me baby
We could think of somethin' to do, 'cause

It's the right time of the night
The stars are winkin' above
And it's the right time of the night
For makin' love

No use talkin' when the shadows fall
Nightbird's callin' and he says it all
And it's me and you baby
We could think of somethin' to do
(Somethin' to do)
Hey, 'cause

I got you and you got me
Honey, that's the way our momma
Always said it should be
You'll be sweet, I'll be kind
We'll be bad, if you don't mind

Yes...

Yes, it's the right time of the night
The stars are winkin' above
And it's the right time of the night
Oh baby, let's make love

Yes, it's the right time of the night
Baby, let's make love
(The stars are winkin' above)
Baby, let's make love
(It's the right time of the night)
Baby, let's make love
