

Ambition

John Vanderslice

Forget about suzanne
She's with some other man
Don't worry about your boy
He's got a computer

Forget about the role
It went to some other bloke
So what?
You'll never meet (never meet) sharon stone

You need to lose ...
You need to lose ...
Ambition...
Ambition...

Open up your mouth
We'll watch the dropper empty out
I made it myself
I call it sexy sadie

Walk down the street
Where pine and heather meet
And fluttering birds
Are stronger than words

You need to lose ...
You need to lose ...
Ambition...
Ambition...
