Fly

John Waite

For so long, you've gone on
Trying to see an end to it all
And I know, your grip is getting loose
You think if you leave
The pain will go away
But you don't know
You need it to get through
'Cause I can tell by the things you say
That your feelings will never change
You'll keep coming back to what you know is true
It's okay to want to be free
It's okay to spread your wings
If you know how to fly
So for now, you go on
Crawling along for a while
But you're dragging me down
You're holding me back
You're making it end
'Cause I can tell by the things you say
That your feelings will never change
You'll keep coming back to what you know is true
Chorus
You can fly
Chorus
It's okay to close your eyes
It's okay to fade away
If you don't want to stay
'Cause you can fly
You can fly
