

Gravity

West, John

Gravity can't hold me
Gravity can't hold me no more
Gravity can't hold me
Gravity can't hold me no more

Gravity can't hold me
And if you wanted to know me
Don't talk would ya show me
Could you show me where you're coming from

You always wanted to do this
Not all of us pursue this
Maybe day jobs pollute us
You paid you're dues so let's do this

And when you finally let go
Fast lane and drive slow
Let's get it right from the get go
But I'm still waiting by the phone

And since I've come this far
Guess I could walk just a little bit more
Since you've come this far
Guess you could walk
Guess you could walk

Just a little bit more
Just a little bit more
Just a little bit more
Just a little bit more
Just a little bit more
Just a little bit more
Just a little bit more
Just a little bit more

Dreams carry us through
Help us do what we got to
I really wanted to thank you
For sharing the road with me

Cuz we're all moving
Gotta figure out what you're doing
Ain't nothing that needs proving
'cept proving to your own

And when you finally get there
you might find there ain't no 'there' to get to
But that's alright
We're gonna see this thing through
See this thing through

and since Ive come this far
Guess I could walk just a little bit more
Since I've come this far
I guess I could walk
Guess I could walk

Just a little bit more
Just a little bit more
Just a little bit more
Just a little bit more

Gravity can't hold me
Gravity can't hold me no more
Gravity can't hold me no more
Gravity can't hold me
Gravity can't hold me no more
Gravity can't hold me
