

Keep It Together

West, John

Verse 1:

And the truth is I don't know
Whereever I'm gonna go
I gotta find truth for sho
Else what am I digging for?

Been Lookin at chu all day
Been lookin for words to say
Some feeling I just can't face
But I'm say this anyway

Chorus:

Let's keep it together
Hey
I'm by your side
I wanna do this right

Let's keep it together
Hey
I'll do what I can
not always in my hands

Verse 2:

And maybe the time is now
Though I think it's so funny how
Unsure but act so proud
All alone up in this crowd

And maybe that day would come
Or maybe it's every one
Layin down in the summer sun
Countin my blessings - one

Chorus

Verse 3:

Feeling that beat in me
Knowin good things aint free
Be want I want to be
Remember my family

Been thinking bout if I fall
For you or stand so tall
Let's keep it together yall

Chorus (extended)
