

# Thought I Was

West, John

She came into my day  
I told her softly  
That maybe she could stay  
It feels so right  
To feel like this  
Cause after all  
Ignorance is bliss  
She stayed a while  
Then packed her things  
That's why I sing  
I lived like she wanted me to

Cause I thought I was in love with you  
I thought I was in love  
I thought I was in love with you  
I thought I was  
I thought I was

Next love I tried to look with both eyes open  
Hoping that I would find  
Myself a better half  
Let's do the math  
And take away the point of view  
She blinded me  
I stumbled in  
I fell for her  
Once again  
I lived like she wanted me to cause

I thought I was love with you  
I thought I was love with you  
Maybe you thought you was in love too  
But I thought I was in love with you  
Thought I was

Last love I had  
Last thing I needed  
But who was gonna tell me that  
If it was real  
Then I should feel  
Somebody giving it back to me  
So it's a shame  
No need to blame  
We play these games  
Whether we know  
I lived like she wanted me to

Cause I thought I was love with you  
I thought I was love with you I  
I thought I was love with you  
Maybe you thought you was in love too  
But I thought I was in love I  
Thought I was...
