

# Baby Come Back

John Wetton

You went away leaving me on my own  
You went out there with somebody new  
The distractions day are okay  
I don't worry  
But the night brings the memory back of you...

Plenty of girls I can laugh and pretend with  
The evenings are never a bore  
But the end of the party I leave by myself  
And the thrill turns to chill when I get home

Baby come back  
I'm lonely without you  
Baby come back  
You went away  
Baby come back  
Said I'm lonely without you  
Baby come back

I always thought of myself as a loner  
You proved me wrong now I know  
Despite what I said, It's a high price I paid  
It's so cold at the end of the day

I need you back by my side, there's no doubt I loved only  
you all along  
If you would admit that you're aching as I do  
Come back, I'll admit that I was wrong
