## **Be Careful What You Wish For**

John Wetton

Finding forgiveness at the foot of your bed Down on your bended knees Listen to the voice replying inside you head "Just leave your message please"

Sometimes your life may seem it's turned upside down And the strangest things are happening But you just don't give a thought about it Can you fix it with a drug or a drink? And you're out of control So you just can't stand to talk about it

God knows Be careful what you wish for Be careful what you wish for

Can you get frightened as the thought of the truth? Or are you gonna win at last? (I don't think so) Sometimes you wish you hadn't sinned in your youth 'Cos now you're living in the past

Honesty is not a word that springs into mind In the dead of night, when if just ain't right And you really could be losing it You pray, "Dear Lord, just take those ghosts from my sight!" But the line is dead, dial collect instead Operator keeps refusing it ...
