

# You're Not The Only One

John Wetton

I see you now in the dead of night The shadows closing in  
You lie and wait for the morning light You'll just survive till  
then

Loneliness only means you harm So try to raise a smile Don't  
you know that your open arms Can bridge a thousand miles?  
When there's no end to it all Try to surrender Let yourself  
fall and just Try to remember

You're Not The Only One who feels pain Open your heart  
and live again The rule you depend upon From this day on  
You're Not The Only One

Throw back the shutters and unlock the spell Let sunshine  
light your face The growing fears that you know so well Will  
vanish into space

You're Not The Only One who needs faith Climbing the face  
of the unknown To tell you you're not alone And, above all  
else You're Not The Only One

Free Yourself Take a good look around There's a lot of love  
to be found Love will not let you down
