

## I Just Found Out (single Version)

Johnny Burnette

I just found out some things I thought of you  
I never dreamed that they were true  
I just found out that you were leavin' me  
I never dreamed that it would be

I prayed to God to send her love to me  
When deep inside this love would never be  
I just found out that you was cheatin' me  
I never dreamed that it could be

I prayed to God to send her love to me  
When deep inside this love could not be  
I just found out that you were cheatin' me  
I never dreamed that it could be
